Q1 2014 events

Following on from the hugely successful FREEDOM SUMMIT in Brisbane in November 2013, we have listened to all the feedback and agree that one day was just too cramped. Many people wanted the speakers to have longer on stage, and so your wish is our command!

We've now added some truly amazing International Speakers to join the line up!

You will leave this FREEDOM SUMMIT with powerful information and practical methods to make effective changes in your life immediately, and on an ongoing basis.

Welcome message from Mark Darwin

We will be addressing everything from:

- Freedom of Tax (Lawfully, hear from Mark about Foundations backed up by Graham the Accountant)

- Learn ways to make the Law System work for you. Hear from a truly incredible Barrister who knows about the 'double edged sword' of the Law.
- Being the Banks worst nightmare. Rid yourself of debt without giving the Banks a red cent.
- Handling Police and Council fines. This will be workshopped by one of the most tenacious and courageous freemen in Australia. You will leave with basic templates to make your own.
- The truth around cancer treatment, and alternatives that work! Not TGA approved of course.
- The fundamentals of your body and the food we need to stay healthy and happy.
- Sustainable living and intentional 'Community'.
- Deep insights into what's really going on around the world from people who have been to areas like Gaza (the Israel / Palestine issue), South America where the forests continue to be raped for things like Palm Oil, the US where the Capitalist structures are crumbling before our very eyes, and more.....
- Hear from one of Australia's leading 'Origines' about an area of Land Rights that affects us all. If you think you own your own home (with or without a Mortgage involved) this will astound you.

This truly is a collaborative event, drawing together some of the worlds strongest advocates for a life without servitude.....in other words.....FREEDOM.
